

I Claim:

1. A personalized medication card for patients, comprising:
 - (a) a listing of medicines to be taken by the patient;
 - (b) a color image identifying each medicine; and
 - (c) instructions for administering the medicine into the body.
2. A personalized medication card according to claim 1, and comprising a name of the patient.
3. A personalized medication card according to claim 1, and comprising a residence address of the patient.
4. A personalized medication card according to claim 1, and comprising information indicating a bodily disorder treated by a listed medicine.

5. A personalized medication card according to claim 1, and comprising contact information of a care giver.

6. A personalized medication card according to claim 1, wherein said instructions indicate a quantity of medicine to be taken in a single dosage.

7. A personalized medication card according to claim 1, wherein said medicine is provided in pill form.

8. A personalized medication card according to claim 1, wherein said instructions indicate a time for taking each medicine.

9. A personalized medication card according to claim 1, wherein said listing comprises a commercial brand name for each medicine.

10. A personalized medication card according to claim 1, and comprising a card date indicating when said card was printed.

11. A personalized medication card according to claim 1, wherein said card is divided into morning medications and night medications.

12. A personalized medication card for patients, comprising:

- (a) a listing of medicine pills to be taken by the patient;
- (b) a color image of each pill; and
- (c) instructions for administering the pills into the body, said instructions indicating a number of pills to be taken in a single dosage, and a time for taking each pill.

13. A personalized medication card according to claim 12, and comprising a name of the patient.

14. A personalized medication card according to claim 13, and comprising a residence address of the patient.

15. A personalized medication card according to claim 14, and comprising information indicating a bodily disorder treated by a listed pill.

16. A personalized medication card according to claim 15, and comprising contact information of a care giver.

17. A personalized medication card according to claim 12, wherein said instructions indicate a quantity of medicine in each pill.

18. A personalized medication card according to claim 17, wherein said listing comprises a commercial brand name for each pill.

19. A personalized medication card according to claim 18, and comprising a card date indicating when said card was printed.

20. A personalized medication card for patients, comprising:

(a) a listing of medicine pills to be taken by the patient, said listing comprising commercial brand names of respective pills;

(b) a color image of each pill;

(c) instructions for administering the pills into the body, said instructions indicating a number of pills to be taken in a single dosage, a time for taking each pill, and a quantity of medicine in each pill;

(d) a name of the patient;

(e) a residence address of the patient;

(f) information indicating a bodily disorder treated by a listed pill;

(g) contact information of a care giver; and

(h) a card date indicating when said card was printed.
